2.75

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.75

4. Please provide any additional information about the information provided above:

Students who are pursuing certification to teach must prove that they possess proficient skills in reading, writing, and mathematics. Basic skills competence can be demonstrated by providing evidence from course-based competency: no grade of less than a C in the math course (Quantitative Reasoning), the English course (Expression and Interpretation), and the Foundation of Education Courses. Content/subject area competency can be demonstrated in one of two ways: by meeting a minimum GPA in a prescribed set of courses or by passing the associated subject area assessment(s). Additionally, K-9 majors are required to pass the FORT exam.

## Postgraduate Requirements

# Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2022-23.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

### [What are CIP Codes?](#)

No teachers prepared in academic year 2022-23

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2022-23. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

### What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

- Yes

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

**Note:** This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

The Program emphasizes theory into practice. Having experiences in schools threaded throughout the program and associated with most classes allows the students to take what they are learning in the classroom and put it into practice immediately in a classroom. Making these connections provides experiences to see theory at work. In addition, course content in several courses has been adjusted to include at least some instruction in working with limited English proficient students. These include several literacy courses and our multicultural education course. All course-based field experiences also require formal, written reflection by each candidate.

## Assessment Pass Rates

THIS PAGE INCLUDES:

>> [Assessment Pass Rates](#)

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(S205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

>> [Use of Technology](#)

On this page, review the questions regarding your program's use of technology, and update as needed.

**Note:** This section is preloaded from the prior year's IPRC.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes  
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes  
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes  
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes  
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

St. Norbert College embraces digital literacy for all students as a critical skill set. Faculty modeling of effective teaching with technology is one way that knowledge and skills are developed in our pre-service teachers. The Education program incorporates a range of technologies in courses. Because the nature of technology is changing at a rapid pace, the education discipline inserted a "thread" throughout the program that incorporates skills particularly relevant to teaching. These skills are guided by the ISTE standards for teachers and tied to the Wisconsin Teacher Standards. Thus, specific courses require the use of particular technologies in assignments to build pre-service teachers' proficiencies.

# Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

**Note:** This section is preloaded from the prior year's IPRC.

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

From the first course in the program to the last, and throughout the clinical experiences, we emphasize “meeting students where they are.” Consequently, understanding the nature and needs of students then designing instructional strategies to meet those needs is central. The program addresses the specifics as part of our “sophomore block” in EDUC 281 Teaching Children with Exceptionalities which focuses on introduction of basic terminology, themes, categories of disability, and general classroom practices and procedures that provide a basis for practice centering on inclusive education and differentiated instruction.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Pre-service teachers often encounter opportunities to work with individual education program teams in pre-student teaching placements but usually have that experience in one or both of their student teaching clinical placements.

#### c. Effectively teach students who are limited English proficient.

Early field work in the Village Project through EDUC 101/102/103 frequently provides the opportunity to work with students with limited language proficiency. In addition, the frequency and diversity of clinical placements in pre-student teaching and student teaching often afford the chance to support students for whom English is not their first language.

### 2. Does your program prepare special education teachers?

Yes

No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

c. Effectively teach students who are limited English proficient.

## Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

In August of 2018, the state of Wisconsin implemented a new version of PI34, the law governing teacher certification in the state. The law includes significant changes to the requirements for teacher preparation programs, including expansion of grade levels covered by various certifications, shifts in content requirements for elementary certification, consolidation of secondary licenses, and new options to support internships and residency programs. St. Norbert College Education program has incorporated these changes into the redesigned preparation programs under the framework of the new law. The program is combining our strategic goals with the shifted elements of the law to create expanded opportunities and deeper preparation for our pre-service teachers. The program's progress to achieving these goals, and compliance with Wisconsin Department of Public Instruction regulations, is validated each year through an assessment conducted by our WDPI liaison. The Continuous Review Process includes sharing our program data, writing a "self study" report on the program's progress towards our goals, and a one-day site visit. In spring of 2021 St. Norbert Teacher Education discipline's redesigned preparation was approved by the Wisconsin Department of Public Instruction and our continued endorsement from the state of our capacity to certify teachers. We have also received approval of our new K-9 Elementary Teaching Major, and remaining majors (4-12 English/Language Arts, 4-12 Science, 4-12 Social Studies, Music Education. This in addition to maintaining programs in Art, Spanish, French, Theater, Computer Science, and Math. We are currently phasing in the new programs.
